

First Split: Go fight Mist Dragon

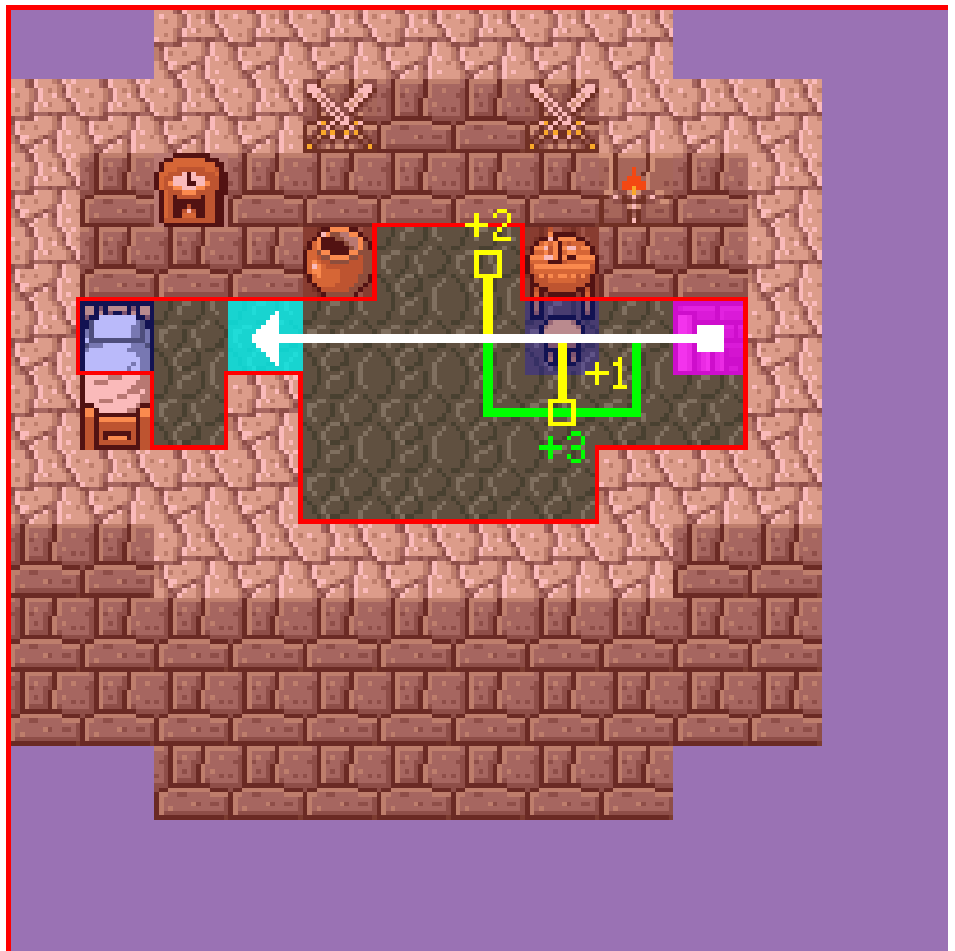

B-Right-Down Raven Skip

Take extra steps around the stool if needed

Wait for audio cue on Kain's third jump

Move the carrot out of the way if you need to before doing the dupe glitch

**After dupe
glitch, Don't
close the
menu before saving!!**

The app will eventually support showing two pages on screen at a time, but right now this is just a shorter split and showing off one page per split

Hot Head Fight

Take the warp to Turtle Rock

Grab the Piece of Heart, enter the back door

Screenwarp R, U to Magic Rod, S&Q

Normal route:

Exit, head D from payphone

SW U, walk U L, SW R to get back to the back entrance

If doing jumpless:

After S&Q, keep Screenwarping North until the framerate tanks. After that, SW north one more time then walk north – don't over-do it or you'll be stuck on a door!

Onett Manipulation

I was looking for a screenshot of a particular cliffskip using teleport, because you have to stand on a particular pixel and a screenshot helps line it up. But then I found Arithium posted their hand-written notes on speedrun.com and had to use that for the example.

Who does hand-written notes!

This is just super cool and made my day.
